

Indiana IDOI Seven Prelicensing Course Approval Evidence - 2026-07-02

Summary

Indiana Department of Insurance approved the National Course Portal Indiana pre-licensing course package by email on 2026-07-02.

The approval email states that all courses and the instructor and director applications have been approved.

This evidence is for the seven Indiana pre-licensing lanes and the associated Program Director / Pre-Licensing Instructor applications only. It does not by itself open public enrollment, checkout/payment, certificate issuance, Sircon completion reporting, or public approval claims.

Gmail Evidence

- Gmail ID: 19f23ca01bdcbcab
- Thread ID: 19f230209d9717b2
- Sender: Sara Tolliver, APIR, Assistant Manager, Agency Services, Indiana Department of Insurance (SaTolliver@idoi.in.gov)
- Recipient: Ankur Fadia
- Subject: RE: Indiana Pre-licensing Course

Boundaries

- The approval email did not list individual Sircon course numbers; Sircon course listings/course numbers were captured on 2026-07-04 in the section below.
- Keep enrollment, checkout/payment, certificate issuance, completion reporting, and public approval claims closed until the launch gate is deliberately reviewed and the production course data is updated with the approved Indiana details.
- Separate this Indiana approval from Indiana CE, Indiana parenting/court, and any non-IDOI course lanes.

Sircon Course Number Capture - 2026-07-04

Codex used the authenticated Sircon / Compliance Express account for Driver Course Platform LLC d/b/a National Course Portal (admin@nationalcourseportal.com) and ran Approved Courses Inquiry for Indiana, Education Type Pre-Licensing Education . Sircon's result page timestamp showed 07-04-2026 08:47 PM CDT .

Completion-reporting verification:

- Sircon Services for the authenticated account expose both Quick Submit Pre-licensing Education Course Completions and Bulk Upload Pre-licensing Education Course Completions .
- Selecting Indiana in Quick Submit opened the PE completion form requiring Provider ID, Course ID, and Course Completion Date before continuing.
- No student data was entered, no completion roster was submitted, no payment was made, and no portal state was changed beyond read-only inquiry/state-selection checks.
- The local filing packet commits to reporting completions through IDOI/Sircon after approval, but the packet does not show a separate direct-reporting election. Current operational route should be treated as Sircon PE completion reporting using Provider 186878 and the course numbers above.

Cleanup

After this evidence note and the trackers were updated, Gmail 19f23ca01bdcbcab was moved to Trash as a processed approval source message.
